#15090

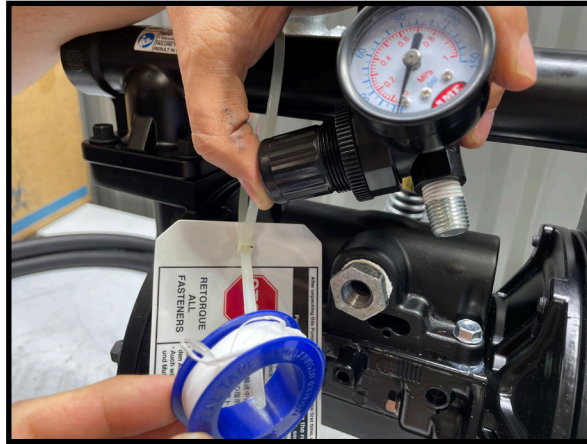

CALCIUM PUMP / FLUID PUMP ASSEMBLY INSTRUCTIONS

!WARNING!

For your safety, read, understand and follow the information provided.

ASSEMBLY INSTRUCTIONS

1. Locate the air inlet regulator and gauge assembly. Pipe Tape or Pipe Compound is recommended to assist with indexing the assembly for ease of use.

2. Install the Air Inlet Regulator and Gauge Assembly. Ensure to index the assembly so that the gauge and control are accessible to the technician.

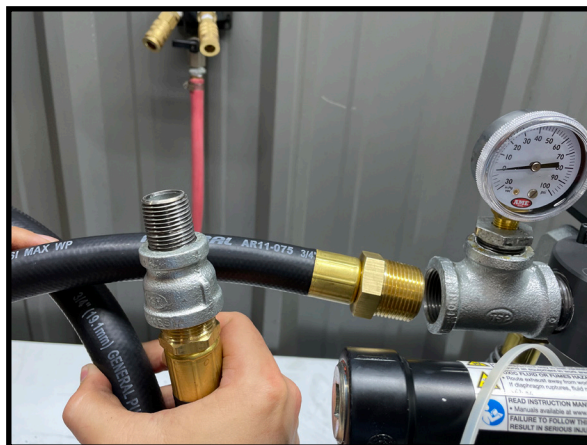

15090 ASSEMBLY INSTRUCTIONS

3. Locate the output hose gauge. Pipe Tape or Pipe thread will help with indexing the gauge for ease of use.

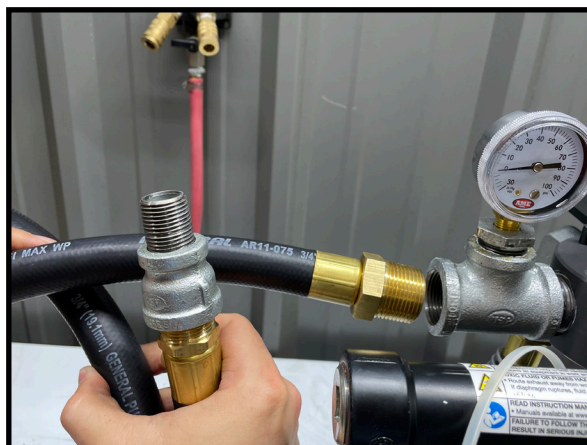

4. Install the output hose gauge. Index the gauge to face the operator while using the air inlet regulator and gauge assembly.

5. Locate the output hose. This can be recognized by the reducer present for mounting the Haltec 310 core ejector gun.

15090 ASSEMBLY INSTRUCTIONS

6. Install the Output Hose.

7. Locate the intake hose. This hose can be identified by the attached strainer.

8. Install the intake hose.
